

## MORROCO'S DALIA AIR Celebrates four years in business

Founded just four years ago, Dalia Air is Morocco's most prestigious executive aviation company, setting global standards for unparalleled service and redefining modern executive air travel style.

The company operates a fleet of Embraer aircraft, including the Legacy 600 in a 13 passengers cabin configuration, and the Lineage 1000, which offers the vast space of an ultra-large jet, with more flexible configuration, allowing five distinct privacy zones for as many as 19 people. Simplifying the complexity of aircraft ownership, Dalia Air also provides managing services. The company assigns a dedicated Account manager to coordinate all the aspects of the aircraft and its operations. This single point of contact is instrumental for the owner to convey his specific flight requirement, get a status report on his aircraft, check on maintenance, financial details etc...

Dalia Air also offers Executive Handling services on all Moroccan airports. The team can handle all types of business

aviation aircraft, focusing their efforts on providing customers with tailor-made solutions and the best passenger and crew amenities. The trained and professional ground handling staff understand the importance of ensuring the journey is as smooth as possible by providing passenger handling, aircraft ramp and parking, ground support equipment, NOTAMS, weather, landing permits, hotel accommodation, limousine, immigration liaison and luggage services. Absolute security and confidentiality of customers are ensured.

January 10<sup>th</sup>, on the occasion of the company's 4<sup>th</sup> anniversary, the President Mrs Hind El Achchabi had the pleasure to invite a few dozen selected guests to a gala dinner in the sumptuous hotel Royal Mansour in Marrakech. Customers, manufacturers' representatives, friends and the entire staff of Dalia Air gathered in the Moroccan styled palace for drinks, followed with live entertainment by world-reknown stars and delicious food. Emotion reached a climax when

Madame Hind took the microphone away from the hands of her zealous MC and member of the company's management, to give an arousing speech. Thanking the employees for their dedication, professionalism and good spirits, she proceeded to honor some of them with special awards in recognition of their services. Highly respected by her staff, Madame la Presidente does care for the people who help make Dalia Air a bespoke travel company.
